

GREEN PIPING ALTERNATIVE FITS HOTEL INSTALLATION TO A TEE

AQUATHERM ADVANTAGES

- Reduced material costs (and concerns about jobsite theft of copper)
- Fusion outlets allowed for easy prefabrication of room taps and other labor savings
- In over 400 fusion connections, only one leak occurred during testing—The system has been running leak-free ever since

PROJECT	PRODUCTS USED	LOCATION/DATE
Comfort Suites Hotel Domestic Water Piping	Greenpipe®	Nashville, TN March 2009

THE CHALLENGE

Copper prices were at an all-time high and the owner sought a less expensive, long-lasting alternative

THE SOLUTION

Aquatherm Greenpipe was used for the majority of the project's domestic water piping system

"We're finding that once customers use it they are completely sold on it. It's a matter of their being open to what's perceived here as a new technology, but it has really been established everywhere else for more than 30 years."

- DEREK GOODWIN, SALES MANAGER FERGUSON ENTERPRISES, NASHVILLE, TN
