PROJECT	PRODUCTS USED	LOCATION/DATE
The Dietrich Residence, Potable Water Distribution	Aquatherm Greenpipe®	Lowville, NY November 2009

THE CHALLENGE

The homeowner sought to eliminate toxins and heavy metals from his domestic water distribution system

THE SOLUTION

Chemically inert Aquatherm helped the homeowner achieve his goal and realize other benefits

“I knew that it was going to cost less than copper, and the fact that there were no leaks from the Aquatherm piping when the system went live, it did not cost me anything to do repairs for leaks.”
