

**RETIREMENT CENTER MANAGEMENT STARTS TREND WITH SELECTION OF AQUATHERM PP-R**

**AQUATHERM ADVANTAGES**

- On a fast-track project, Aquatherm provided labor time savings thanks to heat fusion and its lighter weight compared to steel
- Aquatherm Blue Pipe® was not insulated on several applications, whereas steel would have been
- Ownership embraced the corrosion- and scale-resistance and exceptional flow rates PP-R offers

PROJECT	PRODUCTS	LOCATION/DATE
Friendship Haven Retirement Center, Domestic Hot and Cold Water	aquatherm green pipe®	Fort Dodge, IA, Summer 2011- Spring 2013

**The Challenge**

Friendship Haven’s VP of Campus Support Services wanted a domestic water delivery system that would end problems they’d had with pinhole leaks

**The Solution**

Aquatherm Green Pipe®, was selected thanks to its resistance to hard water, longevity, and quality

“We had thousands of welds on the Friendship Haven project, and when it was all said and done, after our tests we had only a few leaks – if we would have used copper there would have been a whole lot more than that.”

- Mike Omann, Midstate Plumbing & Heating Inc., Fort Dodge, IA
