

NONTRADITIONAL PIPING OPTION TAPPED FOR DOMESTIC WATER AT OLYMPIC VILLAGE HOUSING PROJECT

AQUATHERM ADVANTAGES

- A multimillion dollar warranty provided the owner with peace of mind
- PP-R eased copper theft concerns
- No solder, flux, acetylene, or torches necessary on the jobsite

PROJECT	PRODUCTS USED	LOCATION/DATE
Olympic Village Housing, Potable Water Distribution	Greenpipe®	Vancouver, BC October 2009

THE CHALLENGE

Extremely corrosive water in the area typically ruins copper pipe within 15 years

THE SOLUTION

Over 8,000 linear feet of corrosion-resistant Aquatherm was installed in two parcels of the project

“It reduced labor and material costs, saved tens of thousands of dollars, and you don’t need to insulate Aquatherm with fiberglass because of the pipe’s insulation properties itself.”

- JIM MYERS, OWNER/MANAGER OF JEDA MECHANICAL
