

PP-R PIPE SYSTEM PROVIDES “ELEMENT” OF SAVINGS AT MULTI-STORY, MIXED-USE BUILDING

AQUATHERM ADVANTAGES

- The heat fusion process leads to reliable joints in a short period of time
- Overall cost savings of approximately 20% compared to copper and steel
- PP-R's natural sound insulation properties lead to a quiet and comfortable living environment

PROJECT

Elements at Rivers Edge Housing Complex, Heating Distribution

PRODUCTS

aquatherm blue pipe®

LOCATION/DATE

Red Deer, AB
2010-2012

The Challenge

Selecting a piping system that would install easily and withstand high operating temperatures

The Solution

Aquatherm's polypropylene-random (PP-R) pipes provided superior corrosion resistance and reduced installation times

“When you combine the material and labour costs, going with Aquatherm piping was less expensive. The cost of labour to put black steel or copper together would far exceed what it costs for the labour of Aquatherm piping.”

- Rick Dearing, President, Red Deer Plumbing, Red Deer, AB
