

## BUSY LAUNDRY FACILITY GETS MUCH NEEDED UPDATE WITH AQUATHERM GREEN PIPE®

### AQUATHERM ADVANTAGES

- Material cost for Aquatherm PP-R piping came in at 30% less than copper
- Unlike copper, PP-R resists abrasion and does not corrode or scale
- Significant labor savings thanks to heat-fused connections, including saddle-type fusion outlets installed onto a pre-drilled supply pipe

PROJECT	PRODUCTS	LOCATION/DATE
Sheraton Nashville Laundry Facility, Supply and Process Water Retrofit	Aquatherm Green Pipe®	Nashville, TN December 2011

### The Challenge

The facility's laundry equipment and copper piping were failing after years of use and required replacement

### The Solution

New appliances were acquired and connected with Aquatherm Green Pipe

"We were confident that Aquatherm piping was the right choice based on the application. We showed the customer a sample of the Aquatherm pipe, explained the history and how long it's been in service. We explained the cost and speed of installation, and they were on board with it."

- Jamie Hassett, Chief Officer, Demand Mechanical, Nashville, TN
