

FLORIDA BREWERY PRODUCES COOL SUDS WITH AQUATHERM GLYCOL PIPING SYSTEM

AQUATHERM ADVANTAGES

- The installer saved the owner 40-50% in material costs by using Aquatherm instead of copper
- Aquatherm’s natural R-value provided cost savings in the form of reduced insulation
- Aquatherm is nontoxic and corrosion-resistant, keeping the system clean and pure
- The PP-R system is able to handle a 28°F glycol/water mix whereas some other plastic piping systems can become brittle and crack at such temperatures that low

PROJECT	PRODUCTS	LOCATION/DATE
Veterans United Craft Brewery, Chilled Water/ Glycol System	aquatherm blue pipe®	Jacksonville, FL Spring 2014

The Challenge

Ownership sought the strongest, most reliable, longest lasting, and affordable pipe system it could find for its chilled water system

The Solution

Aquatherm provided all that and more, including a 10-year multimillion dollar warranty and proven success in breweries

“I don’t feel comfortable using other types of plastic piping because I can’t guarantee their success. “[Aquatherm piping systems] had a 100% success rate at the other job. We haven’t had any leaks.”

– Bernard Echt, Owner, Bernie’s Boiler & Cleaners Equipment Service, Jacksonville, FL
