

## PLASTICS EXPERTS SELECT AQUATHERM FOR NEW MANUFACTURING FACILITY

*Aquatherm Blue Pipe® placed in a trench beneath the floor offers flexibility for this facility's process cooling needs.*

### PROJECT:

IVP Plastics  
Process Cooling

### PRODUCTS:

aquatherm blue pipe®  
aquatherm green pipe®

### LOCATION/DATE:

Washington, IL  
Spring 2018

### THE CHALLENGE

A manufacturing facility desired a leak-free process cooling piping system with the flexibility to accommodate frequent equipment reconfigurations

### THE SOLUTION

Heat-fused Aquatherm Blue Pipe® installed in a trench beneath the floor, with fittings emerging at intervals for machine hook-ups, provided the toughness and versatility this customer desired

"I think any time you're in a process where you would typically turn to welded piping, you should look at the time savings and durability of Aquatherm pipe."

—Jeff Frieden, president, Warner Mechanical LLC, Edwards, IL

### AQUATHERM ADVANTAGES

- The versatility of Aquatherm pipe was valuable to a plastics manufacturer that was looking to reconfigure its process cooling system
- The virtually leak-free performance of Aquatherm was important in the facility's new underfloor piping system
- Because it was installed by Aquatherm-trained technicians, the pipe's comprehensive warranty provides the owners with peace of mind for years to come

we've got a pipe for that
