

GOAL! AQUATHERM SCORES AT NEW WHL ARENA

PROJECT:

Mosaic Place Arena, HVAC and Domestic Water Distribution

PRODUCTS:

aquatherm green pipe®
aquatherm blue pipe®

LOCATION/DATE:

Moose Jaw, SK
Spring 2011

THE CHALLENGE

A tight deadline required quick and easy installation on a large scale with LEED certification as a goal

THE SOLUTION

Aquatherm's lightweight helped speed the installation and the product's eco-friendly benefits were also well received

"The benefits of the Aquatherm system were superior. It was easier to work with since it is lighter than steel or ductile iron."

- Hermann Koechl, GML Mechanical Ltd., Delta, BC

AQUATHERM ADVANTAGES

- Polypropylene pipe weighs up to 80% less than comparably sized metal pipes, offering easier installation
- The improved flow rate results in energy savings
- The simple heat fusion process saved time on labor and helped meet the completion date
